

NoHo CEL Release 4.21

NoHo CEL release 4.21 contains the following:

FAMILY INFO

1) Family Form- In version 4.20, there were some cases where the Ethnicity and Preferred Language fields were not being saved when adding new records. This has been resolved. (Reported by: 4C's of Santa Clara)

ELIGIBILITY SEARCH

1) Siblings Enrolled- Per CDE Management Bulletin 10-02, the "Siblings Enrolled" option has been removed from the sort order list and Eligibility Search Results Report. Note: This applies to saved searches as well. (DGI/NoHo Software)

2) Eligibility Search Results Report- In version 4.20, the field label for family size on the Eligibility Search Results Report was not in the correct location. This has been resolved. (Reported by: 4C's of Santa Clara)

3) Eligibility Search Results Report- In version 4.20, the time stamp on the Eligibility Search Results Report was incorrect. This has been resolved. (Reported by: 4C's of Santa Clara)

REPORTS

1) Audit Log Report- In previous versions, changes to some of the fields on the Family and Child Forms were not being recorded in the Audit Log. This has been resolved. (DGI/NoHo Software)

2) Child Aging Report- A new Child Aging Report has been added. This will allow users to get a list of children that are turning a specified age during a specified date range. This can be used to find the children that are turning 13 and aging out of the waiting list. Note: a new security object has been added to control access to the report. Security rights for all users are set to "No" by default.

Administrators will need to grant access to the report, for the necessary security groups. (DGI/NoHo Software)
